CREATIVE FINANCIAL DESIGNS, INC.

Our History

Founded in 1982, Creative Financial Designs, Inc. (Creative) is a Registered Investment Adviser (RIA) with the Securities and Exchange Commission. Headquartered in Kokomo, Indiana, Creative was established with a clear mission: to assist financial advisers in providing client-focused, values-based financial guidance. The firm supports a wide network of advisers across the country, all committed to delivering exceptional service and results, abiding by their fiduciary responsibility.

Creative offers a comprehensive range of products, including investment management and financial planning services that can be tailored to meet the unique financial circumstances of individual clients. By combining industry expertise with a personalized approach, Creative helps individuals, families, and businesses build, manage, and preserve wealth.

With a strong emphasis on integrity, innovation, and customized solutions, Creative continues to uphold its founding vision—to ensure that every household has access to trustworthy financial advice that promotes long-term success, regardless of one’s starting point or financial history.

Your

FINANCIAL & INVESTMENT

GOALS

Our firm understands our fiduciary requirements to help *you* meet *your* investment goals. With *your* trusted & valued financial adviser, *your* investment management team is here to provide the services for *you* to be successful. This is about *you* and we will never lose that aspect.

Shouldn't *you* use a firm that cares about *your* financial goals?

How to be Great Investors

When it comes to investing, maintaining a long-term perspective is essential. Rather than focusing on factors beyond your control, successful investors stay disciplined and committed to their strategy. We've developed a roadmap designed to help you cultivate the mindset and habits of a confident, long-term investor—empowering your portfolio with clarity, purpose, and resilience.

Tips to be a Great Long-Term Investor

Patience

Successful investing is a long-term game. Markets will inevitably rise and fall and having the patience to stay invested through these cycles allows your investments the time needed to grow and recover. Avoid making hasty decisions based on short-term volatility.

Analytical Skills

Good investors research thoroughly and understand the fundamentals behind their investments. Analyzing financial data, market trends, and economic indicators enables you to make informed decisions rather than guessing or speculating.

Goal Setting

Successful investors establish clear and reasonable long-term investment goals. Defined goals provide a benchmark to measure the effectiveness of your investment strategy. Without them, it's difficult to determine if you're on track or if adjustments are needed to achieve your financial objectives.

Risk Management

Understanding your risk tolerance and diversifying your portfolio are key components of managing risk. By balancing higher-risk investments with safer assets, you protect your portfolio from severe losses during market downturns. Determine a risk you are comfortable with.

Discipline

Discipline involves sticking to your investment strategy and resisting the urge to react emotionally to market fluctuations. Consistently contributing to your portfolio and rebalancing it as needed helps maintain focus on your financial goals.

Continuous Learning

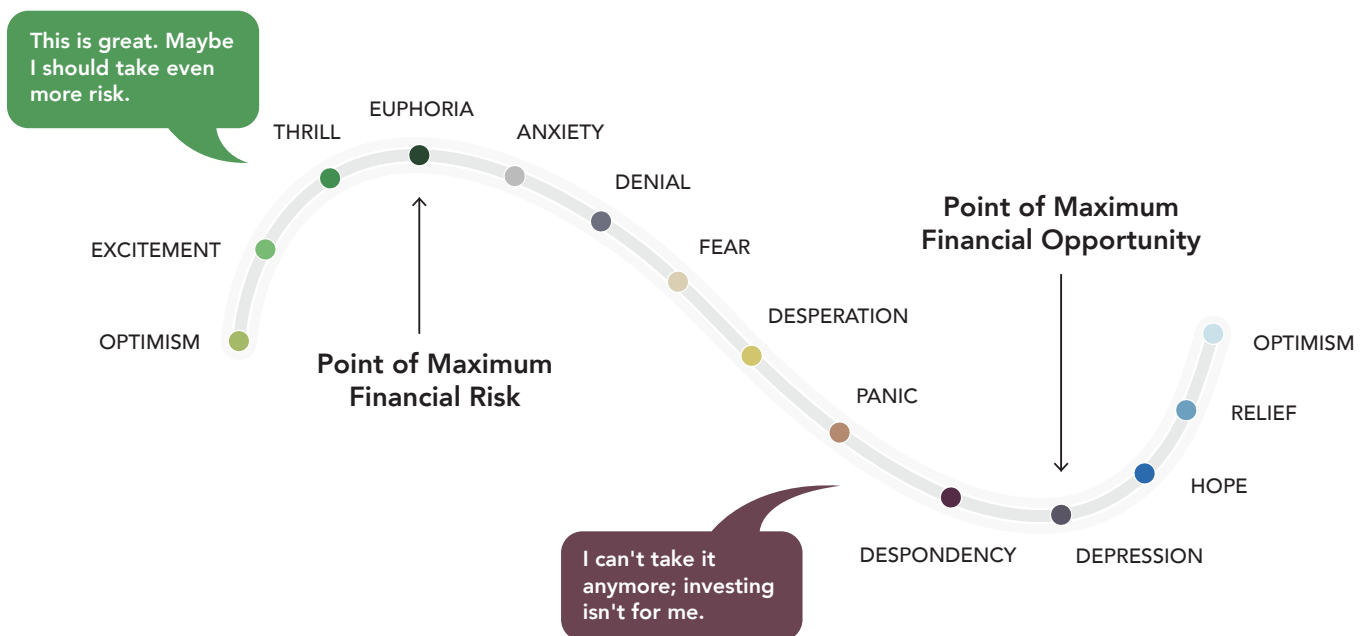

The investment world is constantly changing, and staying informed is essential. Keep learning about new investment opportunities, market trends, and economic policies to adapt your strategies and stay ahead.

DISCIPLINED INVESTING

Human emotions have the ability to affect clients investing. It is common for investor's confidence to grow as your investments grow. Conversely, as markets lose value, confidence decreases. Clients tend to go to the sidelines at the wrong time.

Disciplined investing does not adhere to the emotions of investing such as greed, fear, or chasing returns. Along with keeping your account diversified, using a disciplined long-term investment approach is key to obtaining consistent and sound results, though no strategy guarantees profits or prevents losses.

DO NOT LET YOUR EMOTIONS AFFECT YOUR INVESTMENT SUCCESS

Wall Street Journal, "Control Yourself" June 8, 2009
RBC Correspondence Services, "The Cycle of Market Emotions" June, 2009

It is Time in the Market, Not Market Timing

ALIGN YOUR INVESTMENTS WITH YOUR VALUES

What are BRI values?

When it comes to Biblically Responsible Investing (BRI) values, most BRI firms can agree on several areas to avoid: abortion, pornography, non-family entertainment, lifestyle, alcohol, tobacco, gambling, and human right violations. Besides avoiding certain areas, BRI screens may consider issues such as: equal human rights, clean water, honest pay, safe family entertainment, positive lifestyle and family growth, sobriety and family strengthening assistance.

How can you invest with BRI values?

In learning more about how your investments can support your values, you have already taken the first step. Having your investments professionally managed into one of our Biblical Faith Values investment strategies is the next step. Please understand, this is similar to traditional investing as we use mutual funds, ETF's, and individual stocks depending on the selected investment strategy, just like you are doing now. The distinction lies in aligning with companies from the same yoke & supporting your passions and goals.

BIBLICAL FAITH VALUES BROKERAGE MANAGEMENT SERVICES

Creative Financial Designs, Inc. provides investment management services centered on Biblically Responsible Investing (BRI). Many investors choose this approach to ensure their portfolios align with their faith-based values, selecting investments that support their beliefs while avoiding areas of ethical concern. All investments involve risk, including the potential loss of principal, and there is no guarantee that any strategy will achieve its stated objectives.

HOW IT WORKS

Your adviser helps you and other clients that are concerned about their investments open a brokerage account.

This strategy seeks to align your portfolio with selected faith-based values. While our intention is to honor these values in portfolio construction, all investments involve risk, and outcomes are not guaranteed.

Our investment management team will build and manage your account with selective mutual funds, ETFs, and/or equities, depending on your strategy choice, that pass our Biblical screening process.

As a client, you select your portfolio objective and investment strategy for your managed brokerage account.

BFV AUXANO OVERVIEW

Strategy Objective

The Auxano Strategy (the "Strategy") primary objective is long-term capital growth through stock value appreciation. Creative seeks to achieve the Strategy's objective by investing primarily in U.S. growth stocks that pass the firm's proprietary Biblically Responsible Investing (BRI) screen, have underappreciated future growth, and/or have dislocations in valuations, among other factors. The Strategy's goal is to hold a minimum of 15 stocks at any given time with the typical range between 20-40 stocks, with no upper limit. The Strategy's goal is to invest at least 75% of assets in large-cap stocks (>\$10 billion market capitalization) with an option to invest up to 25% in mid-cap stocks (\$2 billion to \$10 billion market capitalization) and small-cap stocks (<\$2 billion market capitalization).

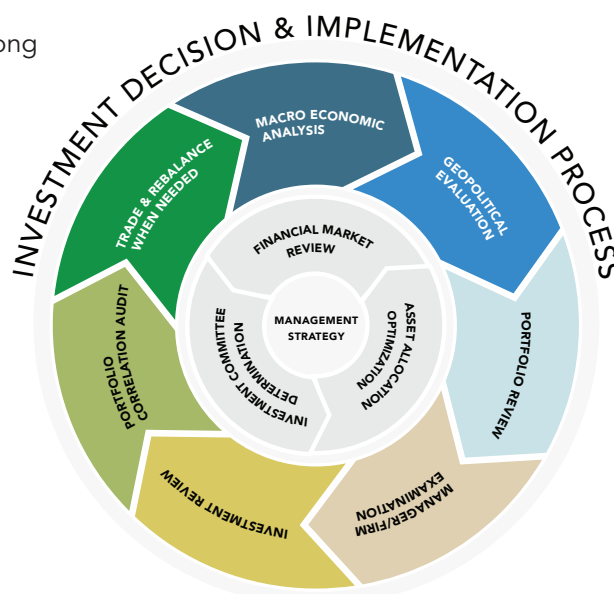

Strategy Process

The investment process involves rigorous evaluation of industry and macroeconomic data and trends in conjunction with fundamental bottom-up research analyzing specific public companies. Individual companies must pass Creative's proprietary BRI screen before any further analysis is undertaken. Stocks that pass the BRI screen are thoroughly vetted, through a process that includes analyzing business fundamentals such as 3-5 year historical and expected profitability margins*, 3-5 year historical and expected revenue trends and drivers*, overall balance sheet strength, Free Cash Flow generation, and capital allocation policies, among other factors. This process seeks to find stocks with strong fundamental earnings growth that are believed to be undervalued based on various valuation methods, including EV/EBITDA and P/E multiples, discounted cash flow analysis, and sum-of-the-parts analysis, among other methods.

Strategy Focus

The Strategy focuses on both historical and the future ability for strong fundamental earnings growth, hence the name origination. The earliest known translation of the Bible is in Greek, in which the word "auxano" means "to grow," "to increase," or "to cause to grow." In the New Testament, auxano is applied to illustrate the maturing of Jesus, the spread of the gospel, and personal sanctification. In Acts 6:7 Luke states "And the word of God increased (Auxano), and the number of disciples multiplied..."

For more specific information on the management process, check out the related Investment Strategy Summary online.

* The 3-5 year historical data and expected profitability margins or expected revenue trends and drivers are based on our internal research and assumptions, which may not occur.

BFV AUXANO SCREENING

Our firm takes the screening process very seriously. We rely on independent BRI software and direct conversations with company management to evaluate individual companies, mutual funds, and ETFs. The infographic below highlights the types of activities and business practices we seek to avoid in our portfolios.

Managing a portfolio is more than simply picking investments. It is about knowing how each position works together in different market environments. Our team spends meaningful time understanding every investment and its role in the overall strategy, using a consistent and disciplined process to provide each investor with the level of diligence they deserve.

BFV AUXANO PORTFOLIO

Within our Biblical Faith Values – Auxano Investment Strategy, the firm offers investment management services with a minimum initial account balance of \$50,000. This strategy maintains a single portfolio objective—all-equity portfolio composition—with a primary focus on the large-cap growth asset class. Due to the concentrated equity exposure, this strategy carries a higher level of risk compared to the firm’s more diversified investment approaches.

Why Use the Auxano Investment Strategy Portfolio

- **Targeted Growth Opportunities:** Managers focus on specific companies or sectors with strong growth potential.
- **Customization and Control:** Allows for a more personalized portfolio that aligns with the goals, values, and risk tolerance.
- **Potential for Higher Returns:** Individual stocks can (but are not guaranteed) outperform broad market averages if carefully researched and managed.
- **Transparency:** You know exactly what you own and why — no hidden holdings or layers of fund management.
- **Tax Efficiency:** Capital gains and losses can strategically be sold for potential tax advantages.
- **Dividend Income:** Many individual stocks provide regular dividend payments, adding a source of passive income.
- **Growth and Earnings:** Holding quality companies over time can compound growth through growth and earnings.
- **Flexibility:** Managers can adjust holdings as markets shift or as your personal goals evolve.
- **Engagement:** Owning individual companies encourages a deeper understanding of markets and business performance.

*Better the little that the righteous have than the wealth of
many wicked; for the power of the wicked will be
broken, but the Lord upholds the righteous.
Psalms 37:16-17*

BFV AUXANO SUMMARY

STRATEGY SUMMARY: NON-DIVERSIFIED

The Biblical Faith Values Auxano Investment Strategy is designed to help you invest with purpose and conviction. By researching and using investments that meet our firm's BRI screening process, this strategy attempts to build an all equity portfolio that reflects Biblical values and beliefs using individual stocks—helping you align your investments with the values and principles you may choose to support.

STRATEGY DIVERSIFICATION TARGET

1

MINIMUM

2

MANAGEMENT TARGET STYLE

4

3

RETURN GOAL

Strategy has higher return goals with likely higher overall volatility.

STRATEGY RISK INTENTION

5

This strategy likely has above average volatility and risk at each portfolio objective option, due to less portfolio diversification.

This page serves as a reference for the target categories outlined above. Please note that no guarantees are made regarding the achievement of these targets or the performance of this or any other strategies managed by the firm. Investment holdings are subject to change without notice, and this report is updated on an annual basis. As a result, the data presented may not always reflect the most current information, and various factors—including management decisions, economic conditions, and other variables—may impact these targets. OUR MISSION

Our Mission is to provide unique and valuable investment services to all clients while honoring our Kingdom Values in guiding our work and lives.

Disclosures for Creative Financial Designs, Inc.

Investment Risk: All investments entail risk, and these risks could result in the loss of some or all of your investment. There is no guarantee of returns. Past performance is not an indication of future results.

Model Portfolios: Portfolios are allocated pursuant to models determined by Creative Financial Designs, Inc., (Creative) which is solely responsible for the content of each model, and the selection of specific investments. Creative has discretion to change the models at any time, and might make changes to the models for any reason, including current or anticipated market conditions. Any references to percentages of assets in a model portfolio are subject to the discretion of the management team, and are subject to change at any time, without notice.

Variations Among Accounts: Each investment model is merely a guideline, and there may be variance between investment holdings, and therefore returns, in any particular account versus the model allocation. In some instances, these differences may be material. Additionally, there may be some differing holdings among customers investing in the same investment model portfolio. Some of these differing holdings are the result of limited investment options, such as would be the case in self-directed retirement accounts, and/or managed variable annuity accounts. Additional variances could arise due to such things as, without limitation:

- programmed reallocations by an issuer, pursuant to particular product terms and conditions
- special reallocation requests by the client
- timing issues, e.g. investors purchase a fund that subsequently is no longer available for new purchasers, so later investors invest in a comparable (though not identical) investment
- size of an investment account
- additional strategic options selected by a client, e.g. a client uses the invest over time option or the optional cash allocation
- additional contributions to an account, or withdrawals from an account
- additional charges or restrictions that may make a reallocation disadvantageous to a particular client
- tax implications applicable to an individual investment or account
- opening of new investments
- minimum investment amounts applicable to investments
- management fee and other fees charged to the client
- choice of product, custodian, platform, broker/dealer, or other third-party service providers, etc.

Client Choices Influencing Returns in the Account: Please note that your choices as a client may influence the returns in your account, and may not mirror returns of holdings of other investors in the same model portfolio. Some of your choices that may affect the account include:

- Making additional contributions to your account
- Making distributions from your account
- Putting special restrictions on your account, either to hold a particular security, to avoid a particular security, to hold additional cash, etc.
- management fee and other fees charged to the client
- choice of product, custodian, platform, broker/dealer, or other third-party service providers, etc.

Biblical Faith Values Portfolio – Determination of Qualified Investments:

The determination of which investments are consistent with Biblical Faith Values is determined at the sole discretion of the management team. CFD utilizes multiple screening tools and other resources, and also relies upon the stated objectives of fund companies to determine that it is maintaining investments that are consistent with Biblical Faith Values. It is acknowledged, however, that particular investors may disagree with a particular fund company or the management team's assessment of how well particular investments comply with the goal of investing assets consistent with Biblical Faith Values. CFD cannot provide a guarantee that in all respects their assessment and that of related fund companies will be consistent with the views of any particular client.

Investment Options Subject to Portfolio Selection Criteria: Selection criteria of individual investments is subject to the limitations set forth in the particular strategy objectives. The firm attempts to diversify investment portfolios subject to the selection criteria for the particular strategy. Descriptions of investment strategies are set forth in the firm's ADV and other applicable disclosures.

The Biblical Faith Values strategies and any of the "Focused" strategies significantly limit the pool of potential investments available to the applicable portfolios. This limitation does reduce potential diversification. Performance of portfolios with these limitations will vary from similar portfolios without those allocation restrictions.

Consideration of Non-Financial Factors: In connection with the firm's Biblical Faith Values strategies, we incorporate a social objective, or other non-financial objective into investment decisions and recommendations, particularly in that the strategy is premised on consideration of biblically-based moral screens as one criteria for qualifying an investment for consideration in the portfolio. The firm does engage in financial considerations as well, and blends both financial and non-financial criteria in its selection process. Incorporating a social objective or other non-financial objective into investment decisions, recommendations, advice, and/or the investment decisions will result in investments and recommendations/advice that are not solely focused on maximizing financial returns in the account.
